

Egyptian olives & pickles

A product guide for importers, wholesalers, foodservice buyers and private-label enquiries.

From Egypt.
For global buyers.

EXPLORE THE RANGE

Whole, sliced, pitted and pepper-stuffed olives, with additional olive and pickle varieties available for enquiry. Packaging routes are discussed against your target market and order brief.

Important: all product images in this catalogue are AI-generated illustrations, not photographs of actual production batches. Product appearance, availability, specifications and packaging are subject to written confirmation in a quotation. This catalogue is not a price offer.

Five starting points

Select your preferred product, then confirm its specification and packing requirements with ALP EGYPT.

Whole oxidized black olives

70–90 grade reference; grading basis to be confirmed.

Sliced oxidized black olives

Enquire about slice thickness and intended application.

Pitted oxidized black olives

Confirm size grade, pitting tolerance and pack format.

Whole green olives

Specify preferred size, brine and destination market.

Pepper-stuffed green olives

Request filling ingredients and allergen information.

A useful first enquiry

Product & variant

More variety. One brief.

The following categories are enquiry-only. Inclusion does not confirm current stock or manufacturing availability.

Pitted green olives

Availability & specification on request.

Sliced green olives

Availability & specification on request.

Natural black olives

Availability & specification on request.

Pickled cucumbers

Availability & specification on request.

Pickled peppers

Availability & specification on request.

Mixed pickles

Availability & specification on request.

Pickled lemons

Availability & specification on request.

Looking for another variant?

Send a product reference, intended use and target market. ALP EGYPT will confirm whether the requirement can be quoted.

Photos are AI-generated illustrations. Recipes, ingredients, allergens, cuts, size grades and availability must be confirmed before purchase. Do not use these illustrations as product-label evidence.

Choose the right format

Discuss these potential formats with us. Suitability and supply capability are confirmed case by case, not guaranteed here.

01

Glass jars

Retail presentation and product visibility. Confirm closure, dimensions, net/drained weight and label requirements.

02

Metal cans

A potential retail or foodservice route. Confirm can specification, lining, closure and product-process compatibility.

03

Pouches / vacuum packs

Discuss flexible materials, sealing, barrier requirements and compatibility with product and preservation method.

04

Foodservice buckets

Explore a format for kitchen use. Confirm food-contact material, tamper evidence, handling and required weight.

05

Bulk barrels

For bulk enquiries: confirm food-contact specification, sealing, transport requirements and unloading arrangements.

06

Private-label enquiries

Share artwork, language, brand ownership and importer details. Label content and packaging need destination-market review.

BEFORE A PACK IS CONFIRMED

Agree material, food-contact suitability, filling / preservation process, net and drained weight, label content, carton and pallet configuration, shelf-life evidence and destination requirements. No fixed pack sizes or shelf-life claims are supplied here.

Let's prepare your brief

The more precise your requirements, the more useful the quotation discussion.

BUYER CHECKLIST

1. Product, variant and intended use
2. Destination country and importer / business name
3. Quantity, order frequency and preferred delivery date
4. Packaging format and requested net / drained weight
5. Size / cut, ingredients, brine and allergen requirements
6. Required documents, testing and certification evidence
7. Delivery terms, destination port and payment discussion

Request a sample if needed. MOQ, lead time, pricing, shelf life and documentation must be agreed in writing; they are not promised by this catalogue.
